

Squirrel AI — Franchise Recruitment Social Ad Pack 2

Platforms: LinkedIn, Facebook, Instagram | **Objective:** Lead gen (Item 19 download / territory check / discovery call) **Personas:** (A) Multi-Unit Investor, (B) Corporate Exit Executive, (C) Former Educator / First-Time Owner

How Pack 2 differs from Pack 1: Pack 1 led with scale ("3,000-unit giant arrives") and raw unit economics. Pack 2 tests four new angles — educator identity, first-mover timing, objection handling, and contrarian curiosity — plus new formats: LinkedIn video and conversation ads, a Facebook lead form ad, and an Instagram story sequence. All figures are taken from the FDD Item 19 references in Pack 1; nothing new has been claimed.

LINKEDIN

LI-5 | Sponsored Single Image Ad — Former Educator (identity angle)

Headline (70 char max): You Left the Classroom. You Don't Have to Leave Education. (58) **Intro text:** You know the system: too many students, not enough teachers, and burnout doing the math for you.

Squirrel AI Learning lets you stay in education — as an owner. A Level 5 Large Adaptive Model handles instruction, grading, and lesson planning on smart tablets. You don't recruit certified teachers or write a single lesson plan. You build enrollment and community in a 1,200 sq. ft. center on a recurring \$250–\$350/month subscription model.

Break-even at just 32–38 active students Total investment: \$110,450–\$137,000 Initial training and territory mapping included from day one 3,000+ units globally — first 200 U.S. territories now open

CTA button: Download → *Item 19 Financial Performance Report*

LI-6 | Sponsored Single Image Ad — Multi-Unit Investor (first-mover timing angle)

Headline: Every Franchise Category Has an Early Window. This Is One. (58) **Intro text:** The best multi-unit returns go to operators who secure territory before a category is proven in their market — not after.

Squirrel AI is already proven abroad: 3,000+ units running on an AI instruction engine instead of certified-teacher payroll. The U.S. rollout starts now, with only 200 territories in the first wave and Area Development rights on the table.

Lean 1,200 sq. ft. footprint. 85–90% gross margin per seat. Break-even at 32–38 students.

The window for prime metros doesn't stay open long.

CTA button: Learn More → *Check Territory Availability*

LI-7 | Video Ad Script (45 sec) — Corporate Exit Executive

On-screen opener (0–4s): "What if your second act didn't come with a payroll problem?"

- **0–8s (VO):** "Most franchises trade your corporate job for a harder one: hiring, scheduling, and managing a constantly churning staff."
- **8–18s (VO):** "Squirrel AI Learning is different. A Level 5 Large Adaptive Model teaches, grades, and plans every lesson on smart tablets. Your team supervises the room — the software does the instruction."
- **18–30s (VO):** "That means no certified-teacher payroll, no inventory, no supply chain. Just a 1,200-square-foot center and recurring \$250 to \$350 monthly subscriptions, with break-even under 40 students."
- **30–40s (VO):** "It's already running in more than 3,000 centers worldwide. The first 200 U.S. territories are opening now."
- **40–45s (CTA, text on screen):** "Download the Item 19. Check your territory." → **Download**

Headline below video: The Franchise Built Like a Tech Company, Not a Staffing Agency (61)

LI-8 | Conversation Ad (Message Ad) — Multi-Unit Investor

Subject/opener: Hi {firstName} — quick question for a multi-unit operator: would you add an education brand to your portfolio if it came with no certified-teacher payroll?

Squirrel AI runs 3,000+ learning centers globally on an AI instruction engine. The U.S. launch opens 200 territories — single-unit and Area Development — at a total investment of \$110,450–\$137,000, with break-even at 32–38 students.

Button 1: Send me the Item 19 → [lead gen form] **Button 2:** Is my metro still open? → [territory check page] **Button 3:** Not for me → [polite close: "Understood — thanks for your time."]

LI-9 | Organic Thought-Leadership Post (objection-handling angle)

"I'd buy an education franchise, but I'm not a teacher."

I hear this every week. Here's the thing: in the legacy tutoring model, that objection is fatal — the owner has to recruit, vet, and retain certified instructors in the middle of a national teacher shortage.

In the Squirrel AI model, the objection doesn't apply. The teaching is done by a Level 5 Large Adaptive Model — instruction, grading, and lesson planning, delivered on smart tablets. The

owner's job is enrollment, community, and operations. Initial training and territory mapping are part of the launch.

What the owner actually manages: → A 1,200 sq. ft. center → Floor facilitators (non-certified) who supervise, not teach → A \$250–\$350/month student subscription base → Break-even at 32–38 students; 85–90% gross margin per seat*

3,000+ units globally. 200 U.S. territories opening now.

You don't need a teaching license to own the future of education. You need a territory.

Comment "ITEM 19" or DM me for the full financial disclosures.

FACEBOOK

FB-4 | Feed Ad — Former Educator (identity angle)

Primary text: Teachers make great owners. Here's the model that finally lets them be one.

Squirrel AI Learning centers don't ask you to staff a faculty — a Level 5 AI engine delivers the entire K-12 curriculum on smart tablets. You bring what software can't: relationships with families, enrollment, and community. Initial training and territory mapping are included from day one.

No lesson planning, no certified-teacher payroll Total investment: \$110,450–\$137,000
Break-even: just 32–38 students

Headline (40 char): Stay in Education. Own the Center. (34) **Description:** AI teaches. You build the business. (35) **CTA:** Learn More

FB-5 | Lead Form Ad — Multi-Unit Investor (first-mover timing angle)

Primary text: 200 territories. That's the entire first U.S. wave.

Squirrel AI — 3,000+ learning centers strong globally — is opening its first American markets to single-unit and Area Development buyers. The model: an AI engine teaches K-12 students on smart tablets in a lean 1,200 sq. ft. center, on recurring \$250–\$350/month subscriptions with 85–90% gross margin per seat.

Get the Item 19 and the current territory map without leaving Facebook.

Headline: First 200 U.S. Territories Now Open (35) **Description:** Item 19 + territory map, instantly. (35) **CTA:** Download **Lead form fields:** Name, email, phone, state/metro, "Investment range you're considering" (dropdown), "Single-unit or multi-unit interest?" (dropdown)

FB-6 | Feed Ad — Corporate Exit Executive (contrarian/curiosity angle)

Primary text: The most important hire at this tutoring center isn't a teacher. There isn't one.

At Squirrel AI Learning, a Level 5 adaptive engine handles instruction, grading, and lesson planning. Owners run a simple 1,200 sq. ft. operation — no certified-teacher payroll, no inventory — built on predictable monthly subscriptions and break-even under 40 students.

Proven in 3,000+ centers worldwide. Now launching 200 U.S. territories.

Headline: The Tutoring Franchise With No Teachers (38) **Description:** See the Item 19 numbers yourself. (33) **CTA:** Learn More

FB-7 | Retargeting Ad — warm audience (objection-handling angle)

Primary text: "Do I need an education background?" No — and that's the point.

The AI does the teaching. Your launch comes with initial training and a mapped territory. What you need is a market that's still open — and with the first U.S. wave capped at 200 territories, that's the variable worth checking today.

Headline: No Teaching License Required (28) **Description:** Check your metro in 60 seconds. (31) **CTA:** Apply Now

INSTAGRAM

IG-4 | Feed Single Image — Caption (first-mover timing angle)

3,000 centers worldwide. Zero in your city — for now.

Squirrel AI is opening its first 200 U.S. territories, and they go one metro at a time. The model: an AI engine teaches K-12 students on smart tablets, owners run a lean 1,200 sq. ft. center on \$250–\$350/month subscriptions, and break-even lands at just 32–38 students.

Investment: \$110,450–\$137,000 Single-unit & Area Development rights available Link in bio → Item 19 + live territory map

IG-5 | Carousel (5 slides) — Former Educator (identity angle)

- **Slide 1 (hook):** "For everyone who left teaching but never stopped loving education."
- **Slide 2:** The old way back in: open a tutoring center, then spend your life recruiting certified teachers in a shortage.

- **Slide 3:** The Squirrel AI way: a Level 5 AI engine teaches, grades, and plans every lesson on smart tablets. You build enrollment and community.
- **Slide 4:** The numbers: \$110K–\$137K total investment • \$250–\$350/mo subscriptions • break-even at 32–38 students.
- **Slide 5 (CTA):** Training and territory mapping included from day one. 200 U.S. territories. Link in bio → Item 19.

Caption: You don't need a faculty to own a learning center anymore. Swipe then grab the Item 19 in bio.

IG-6 | Reel / Story Script (30 sec) — contrarian/curiosity angle

- **0–3s (hook, text on screen):** "This franchise's best employee isn't on payroll. It's software."
- **3–10s:** "Squirrel AI's Level 5 engine teaches, grades, and plans every K-12 lesson — students learn on smart tablets, staff just supervise the room."
- **10–18s:** "Owners run 1,200 square feet, collect \$250–\$350 a month per student, and break even at 32 to 38 kids."
- **18–25s:** "3,000+ centers are already running worldwide. America gets 200 territories in the first wave."
- **25–30s (CTA):** "Tap the link for the Item 19 — and see if your metro is still open."

Story sticker CTA: "IS MY METRO OPEN?" link sticker

IG-7 | Story Sequence (3 frames, tappable)

- **Frame 1 (poll):** "Could a tutoring center run without hiring teachers?" [Poll: "No way" / "Tell me more"]
 - **Frame 2 (reveal):** "It already does — in 3,000+ Squirrel AI centers worldwide. AI teaches. Owners operate. Break-even at 32–38 students."
 - **Frame 3 (CTA):** "First 200 U.S. territories opening now. \$110K–\$137K total investment." → "CHECK MY TERRITORY" link sticker
-

TESTING NOTES

- **Angle test:** Run educator-identity (LI-5/FB-4/IG-5) against first-mover-timing (LI-6/FB-5/IG-4) as the primary head-to-head; Pack 1's economics angle is the control.
 - **One variable per cycle:** Pack 2 hooks pair with Pack 1's proven body claims, so differences in CTR isolate the angle.
 - **Judging threshold:** Allow 1,000+ impressions per creative before pausing anything.
 - **Hashtag note:** #PassiveIncome (used in Pack 1's IG-1) is omitted here — it implies an earnings outcome and sits uneasily next to the FDD disclaimer; recommend dropping it from Pack 1 as well.
